JIAYANG HE

New York, NY | +1 (862) 389-9511 | johnhe9378@gmail.com | johnhe9378.wixsite.com/s-imaginations-6

EDUCATION

New York University, Tisch School of the Arts — New York, NY
Master of Professional Studies (MPS), Interactive Telecommunications Program (ITP) — *Expected May 2027*
Focus: Physical Computing, Creative Coding, Data Visualization, Human-Computer Interaction

Central Saint Martins, University of the Arts London — London, UK
BA (Hons) Jewellery Design, First Class Honours; Diploma in Professional Studies — *2020 – 2025*

EXPERIENCE

Shanghai Tingshi Communication Technology Co., Ltd. — Shanghai, China
Front-End Development Intern — *Jul 2026 – Sep 2026*

- Contributed to the development and iteration of the company's front-end projects, delivering assigned tasks within the team's engineering workflow and collaboration standards
- Ramped up quickly on the team's tech stack and processes; recognized by the team for conscientious, reliable work

Georgia Cultural Creative Technology Ltd. — London, UK
Design Intern — *Feb 2024 – Jun 2024*

- Led the visual and interaction redesign of the brand's website from user research through UI delivery, strengthening the consistency of its digital identity
- Drove UX optimization of the e-commerce platform, analyzing user behavior data to refine page layouts and interaction flows and improve retention and conversion

Hannah Martin London — London, UK
Design Assistant — *Sep 2023 – Dec 2023*

- Produced high-fidelity 3D animations and renders in Blender and Cinema 4D for design proposals, internal reviews, and brand marketing
- Iterated product prototypes on tight timelines, supporting two new collections from concept to 3D model

PROJECTS

CDEFGAB | Gesture-Controlled Piano Wearable — NYU ITP

- Built an 8-channel EMG + IMU armband that classifies individual finger movements and plays piano notes in real time
- Developed the full Python pipeline — data collection, model training, and a WebSocket bridge streaming live predictions to a browser demo; raised accuracy by using signal direction, not magnitude alone, to separate fingers

Uselace | Flexible-Circuit Wearable Controller — NYU ITP

- Designed a control glove from a stretchable lace-substrate flexible circuit, mapping hand gestures to resistance ranges across the back of the hand
- Built the Three.js 3D model viewer driving it, with gesture state streamed over WebSocket

Cell-AR | Interactive AR Prototype — NYU ITP

- Built an immersive Unity AR environment with real-time particle systems and light- and sound-triggered interactions
- Designed the camera motion system and spatial interaction logic for multi-layered responsive animations

SKILLS

Programming: JavaScript, HTML/CSS, Python, C++, Three.js, WebSocket, WebSerial API
Creative Technology: Unity (AR/XR, particle systems, audio integration), TouchDesigner, p5.js, Arduino (sensors, physical computing)
Design & Prototyping: Figma, Blender, Rhino, Cinema 4D, Adobe Photoshop, Illustrator, InDesign
Languages: Mandarin Chinese (native), English (fluent)

HONORS & AWARDS

Louis Vuitton Awards Nominee, Central Saint Martins Live Project — full fine jewelry collection in 3D — May 2023
British Art Medal Society (BAMS) Exhibition, Selected Exhibitor — juried annual medal exhibition — Apr 2022
